

## Medical Coding

Quick, uncomplicated medical coding that saves time and increases accuracy

Viedoc Medical Coding enables trial personnel to swiftly and accurately code clinical terms like trial medications and adverse events. Designed with efficiency and ease-of-use in mind, our solution features built-in manual batch coding, support for major dictionaries, auto coding and more. Viedoc Medical Coding is fully integrated with our intuitive EDC platform, ensuring swift and uncomplicated workflow while reducing manual effort. This powerful, browser-based solution saves time and resources, enabling coders to focus on more challenging situations.

## Licensing overview

Enhancing our robust EDC platform with flexible coding capabilities creates an easy-to-use solution that saves time and resources.

## Features

- **Support of leading medical dictionaries**  
Support of leading medical dictionaries, including MedDRA, WHODrug, ATC, and IDF.
- **Auto coding**  
Automatic coding of the selected CRF terms as soon as they are entered in Viedoc Clinic.
- **Query management**  
Facilitated Viedoc Clinic form access for coders, enabling the viewing of additional information and raising queries.
- **Real-time medical coding sync**  
Data points become available in Viedoc Coder right after being saved in Viedoc EDC.
- **Batch coding**  
Simultaneous coding of multiple items to a single dictionary value.

## What's in it for you?

- **Support for leading dictionaries**  
Easily access all the major medical terminology libraries, ensuring exact matches for your study.
- **Automated and intuitive**  
Users can focus their efforts on more complex tasks while the system handles routine processes, accurately and effectively.
- **Real-time coding sync**  
Prompt availability of data points ensures that medical coders can complete their tasks without delay.
